Thank you for your purchase! If you have any questions that you feel should have been in this document, please log in using the account used to purchase the file and email via my user profile page contact form there. Thanks!

For questions on basic HTML, JavaScript or CSS editing - please give your question a quick Google or visit W3Schools as theme issues get top priority.

Version 4.06

Requirements

In order to install and use CMS pro v.4.06 you must have CMS pro v.4.05 already installed.

Upgrade

Unzip the upgrade.zip package into your local drive. If you don't have WinZip, you can download it for free <http://winzip.com>.

Using an FTP program (such as Filezilla, which is free, or a commercial package such as CuteFTP), login to your web server and copy upgrade files across into your CMS pro root directory, keeping the same file/folder structure.

Upgrade Wizard

CMS pro Upgrade includes a simple two step upgrade process. To start the upgrade wizard, navigate to the directory that you installed CMS Pro, for example: <http://www.example.com/upgrade.php>

The Upgrade wizard will appear. Follow simple on screen instructions.

What's New?

Version 4.06 brings few new and existing features.

1. Ability to sort gallery images
2. Stripe payment gateway (no support for recurring payments)
3. PayFast payment gateway (no support for recurring payments)
4. Updated font awesome to v4.2.0
5. All known bug fixes.

Sources & Credits

The images included in preview are for demonstration purposes only. Some photos can be purchased separately. (If needed, particular links can be given at your email request).

In downloaded product folder placeholders might be used instead of real stock images.

Thank you so much for purchasing this script!
